

# The New Alternative For Hose & Couplings

*Complete line of RoHS  
Compliant hose & couplings  
with immediate delivery*

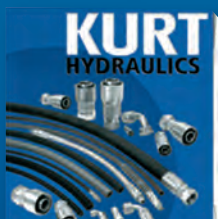

With over 35 years of coupling manufacturing experience, it's no-wonder KURT has become the number #1 alternative for so many OEM's and distributors. With over 1500 coupling models, KURT Hydraulics can fill almost any application requirement. In addition, KURT has a vast inventory of over 3 million feet of high pressure hydraulic hose available for immediate delivery.

All KURT couplings are interchangeable with other popular brands and meet SAE specifications. For complete convenience, KURT maintains a 95% out of stock fill rate. Available nationally at local distributors and integrators. New distributor inquiries are always welcomed.
