

## INTRODUCING **KURT STAINLESS STEEL HOSE AND COUPLINGS** -65°F UP TO +450°F

### **SAE 100 R14 Stainless Steel Hose and Coupling for high heat and sub-zero equipment.**

Kurt Hydraulics introduces a new line of Stainless Steel Hose And Couplings for high heat to sub-zero installations. Kurt Stainless Steel Hose features reinforced stainless steel braid with white extruded PTFE inner tube meeting SAE 100 R14 specifications. This hose withstands temperatures from -65°F up to +450°F, plus resists corrosive fluids and vibrating environments.

Diameters are available ranging from 3/16" to 1" ID. Over 120 coupling end configurations are available from stock. Rated water pressure for Kurt's Stainless Steel Hose ranges up to 3,000 psi with minimum burst pressure up to 12,000 psi.

All KURT couplings are interchangeable with other popular brands and meet SAE specifications. For complete convenience, KURT maintains a 95% out of stock fill rate. Available nationally at local distributors and integrators. New distributor inquiries are welcomed.
